TRANSPORTATION INFRASTRUCTURE

Gaziantep - Şanlıurfa (Gaziantep Ring Highway Project) with 6 lanes connecting the region to Mersin and İskenderun Ports were completed at the end of 2008.

Şanlıurfa - Silopi (including Habur Border Gate) 2x2 divided highway was completed.

2 conventional and 6 STOL type airports are operating in the Region.

Türkiye's largest cargo airport was opened on 16 July 2007 (GAP Şanlıurfa Airport).

INDUSTRIAL INFRASTRUCTURE

Organized Industrial Zones (OIZ);

- ❖ 18 OIZ are completed (2 of them are agriculture-based fattening OIZ)
- ❖ 5 OIZ are under construction

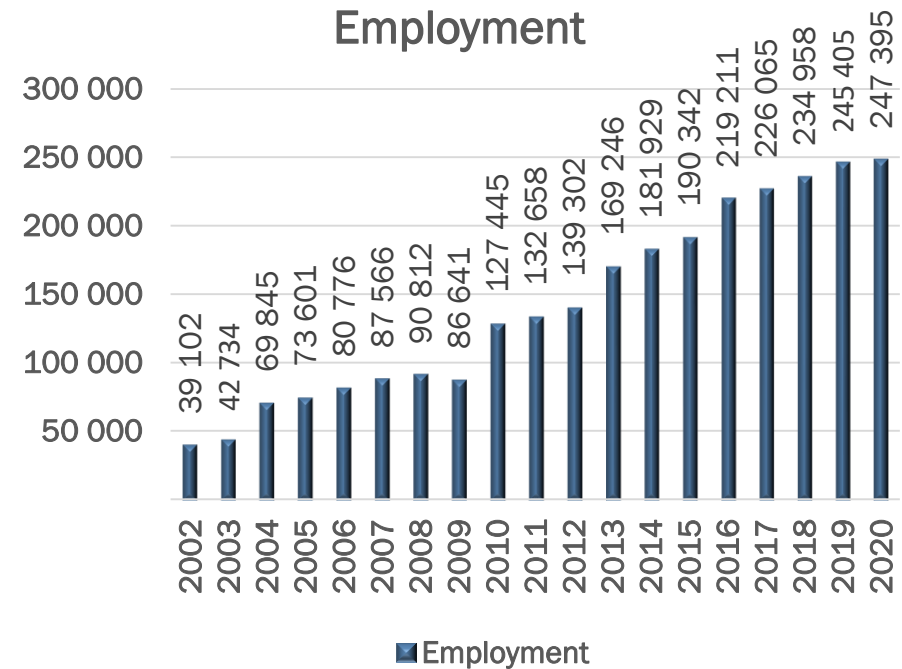

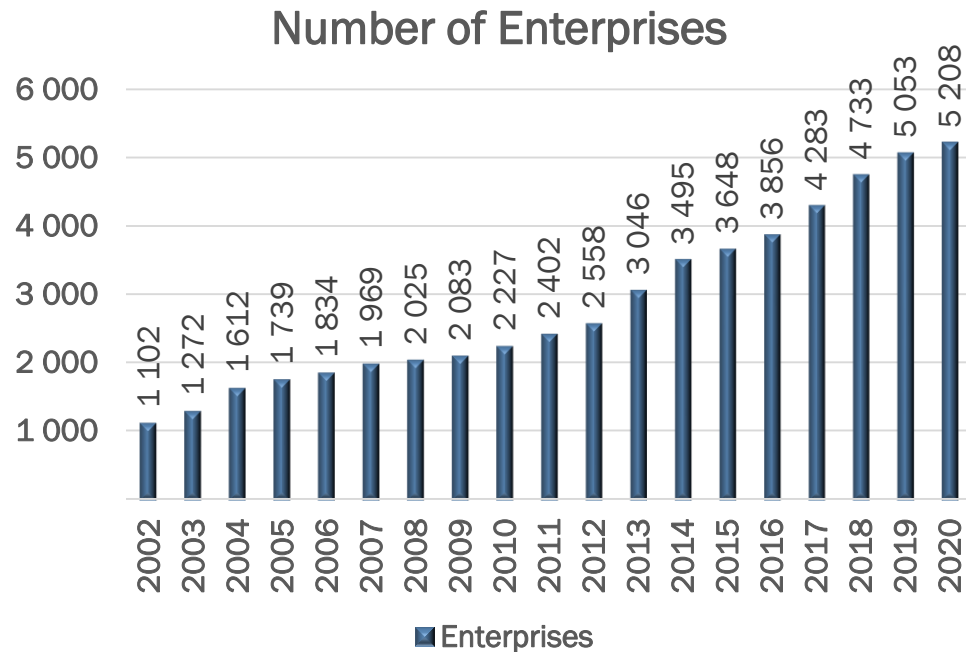

Small Industrial Zones (SIZ);

38 small industrial sites are completed

 - **2008 - 2013 period:**
2,3 million ha
 - **2014 - 2018 period:**
176 per thousand ha
 - **2007:** 161.000 ha

DEVELOPMENTS AS PART OF GAP ACTION PLAN

- ❖ Road Length : 6.514 km
- ❖ Motorway : 294 km
 - ❖ 2008 - 2021 period : 91 km
 - ❖ 2007 : 203 km
- ❖ Dual Carriage Way : 2.545,3 km
 - ❖ 2008 - 2021 period : 2.038,3 km
 - ❖ 2007 : 507 km
- ❖ Şırnak Airport was put into service in 2013.
- ❖ Adıyaman, Batman, Diyarbakır and Mardin Airport terminal buildings were built.

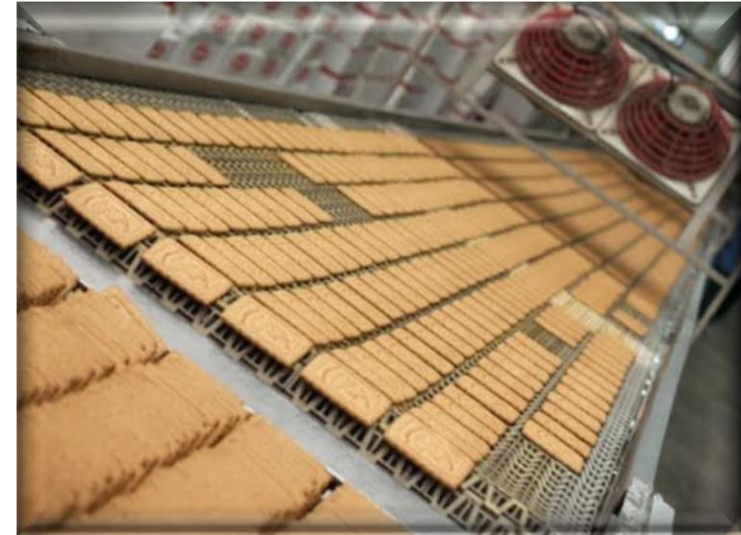

DEVELOPMENTS AS PART OF GAP ACTION PLAN

- ❖ **Organized Industrial Zones :18**
 - ❖ 2008 - 2021 period :10
 - ❖ 2007 : 8

- ❖ **Small Industrial Zones : 38**
 - ❖ 2008 - 2021 period : 13
 - ❖ 2007 : 25

- ❖ 3 Technoparks (Gaziantep, Dicle and Harran) were established and are in operation.
- ❖ The new incentive system has been implemented.
- ❖ SMEs credits have been increased.

DEVELOPMENTS AS PART OF GAP ACTION PLAN

- ❖ **Constructed Classrooms : 41.420**
 - ❖ 2008 - 2013 period : 12.877 classrooms
 - ❖ 2014 - 2021 period : 28.343 classrooms
- ❖ Number of Students Per Classroom in Primary Education: 28 (2004: 50)
- ❖ A secondary education hostel with a capacity of 48,682 students, was built in the period of 2008 - 2020,
- ❖ Dormitories with a capacity of 11,200 students were built in the region, and 17 dormitories with a capacity of 16,517 students, were rented and put into service in 7 provinces.

DEVELOPMENTS AS PART OF GAP ACTION PLAN

- ❖ **Hospitals and Beds** : 131 hospitals – 20.936 beds
 - ❖ 2008 - 2019 period : 35 hospitals – 10.956 beds
 - ❖ 2007 : 96 hospitals – 9.980 beds

 - ❖ Number of beds per 10 thousand people: 23,3
(2002:13)

- ❖ **Constructed Social Services** : 90
 - ❖ 2008 - 2013 period : 50
 - ❖ 2014 - 2021 period : 40

- ❖ **Renovation of Cultural Assets** : 162
 - ❖ 2008 - 2013 period : 58
 - ❖ 2014 - 2021 period : 104

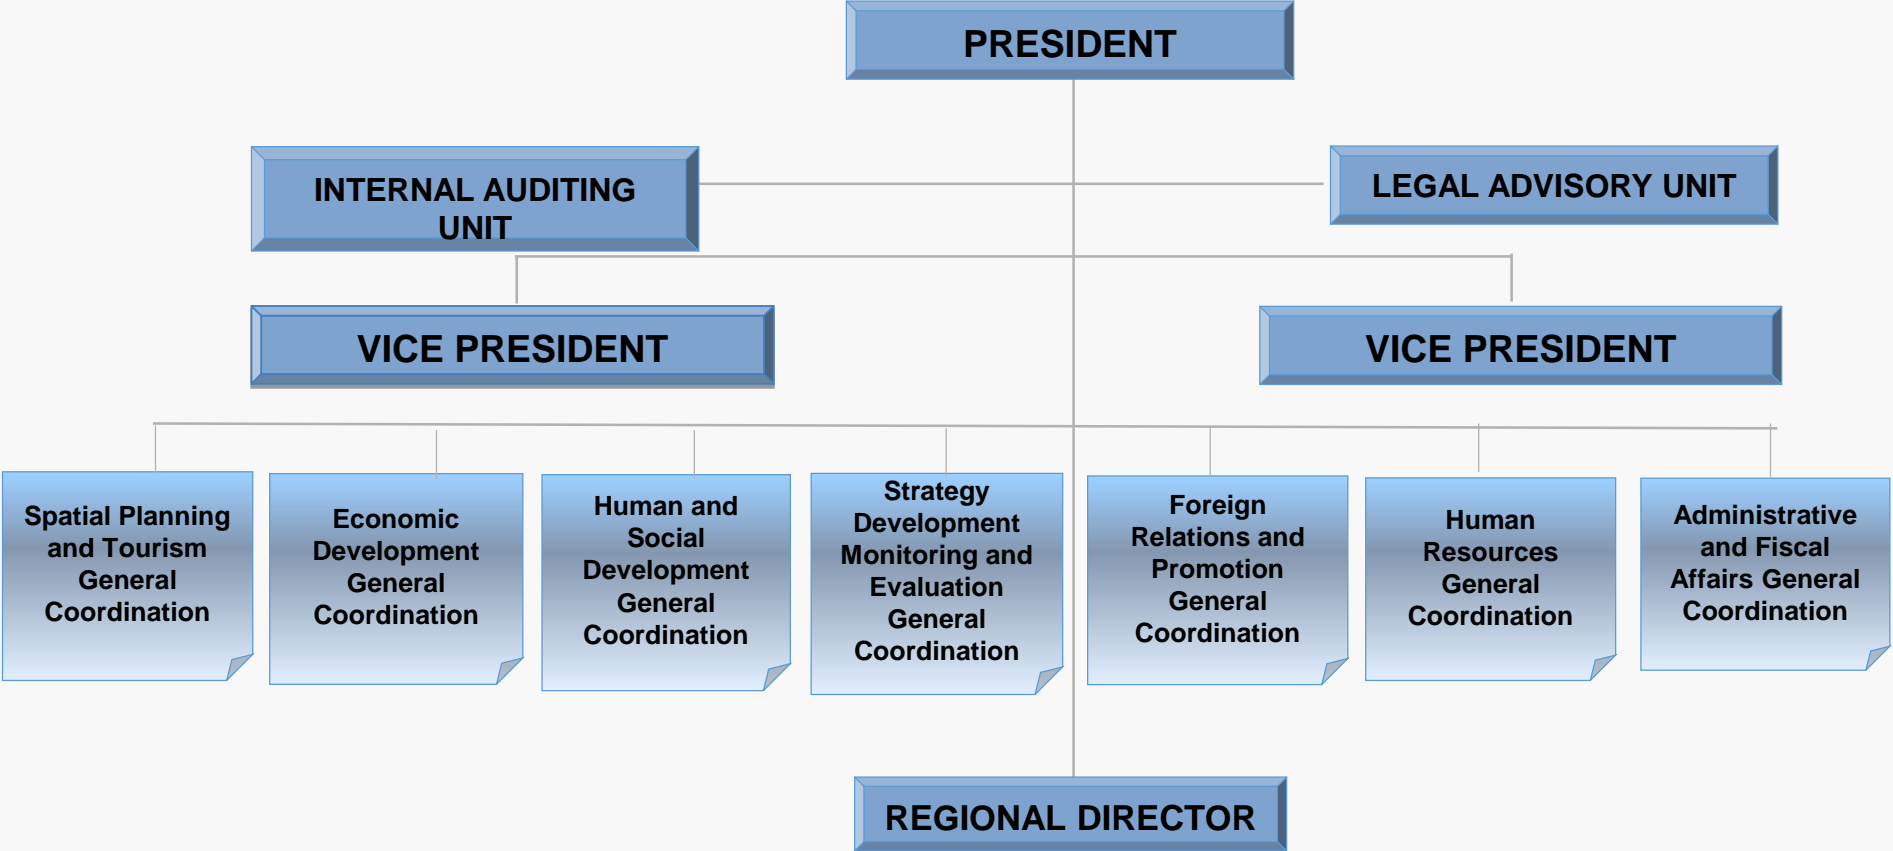

DEVELOPMENTS AS PART OF GAP ACTION PLAN

- ❖ Attraction Centers Support Program has been introduced in Diyarbakır, Şanlıurfa and Gaziantep. 450 million TL has been allocated between 2008-2018
- ❖ 3,693 projects have been supported under the Social Support Program, which has reached 1.6 million people, and 1.147 billion TL has been transferred.
- ❖ 46,317 houses were completed in 2008 - 2020 period and 6,477 houses are still in progress.

GAP RDA GENERAL ACTIVITIES

- ❖ 833 sub-projects were supported in the period of 2014-2021.
- ❖ More than 1.1 billion TL of resources were used with the projects carried out by the Administration.
- ❖ 154 projects were supported and approximately 230 million TL of resources were used in Şanlıurfa.
- ❖ 17.4 million TL support will be provided to 9 projects in Şanlıurfa with a budget of 23.7 million TL in 2022.

**ECONOMIC DEVELOPMENT
PROJECTS**

GAP REGION COMPETITIVE AGENDA

It aims to reveal the strategies and sectors that will increase the competitive power of the GAP and brand the Region.

Vision: Cradle of Civilisations

5 Basic Strategies:

- ❖ Sustainable Production
- ❖ Develop Entrepreneurship
- ❖ Internationalisation
- ❖ Practical Technology Centers
- ❖ Clustering and Networking

3 Basic Sectors:

- ❖ Renewable Energy
- ❖ Tourism
- ❖ Organic Agriculture - Organic Textile - Organic Children's Clothing

RENEWABLE ENERGY AND ENERGY EFFICIENCY

- ❖ Renewable Energy and Energy Efficiency R-D Center
- ❖ “GAP-EVD Incubation Center and Common Use Laboratory”

2012-2017 Period:

- ❖ Analysis Studies in Industrial Enterprises
- ❖ GAP Industrial Energy Efficiency Financial Support Program
- ❖ Vegetable Waste Origin Model Pellet Production Plant
- ❖ Sustainable Green Prefabricated Building Application
- ❖ Transition to Carbon-Neutral Economy Survey Project
- ❖ Sustainable Energy Approaches Project
- ❖ Animal Waste Origin Model Biogas Plant

2017 and Later:

- ❖ Solar Cell Irrigation Channel Application
- ❖ GAP Green Innovation 2020 Project
- ❖ Increasing Energy Efficiency in Irrigation Pumps
- ❖ Integrated Energy Efficiency Project in Agricultural Irrigation
- ❖ Karaali Geothermal Project

ENTREPRENEURSHIP

NEED ANALYSIS OF ENTREPRENEURSHIP AND INNOVATION PROJECT

- ❖ Development of a strategy and action plan to strengthen the region's innovation and entrepreneurship ecosystem
 - ❖ OIZ-SME, Business Incubator (İŞGEM), Universities, Technology Development Zones, Technology Transfer Offices and SME Business Packages
 - ❖ 26 reports were prepared within the scope of work packages

ENTREPRENEURSHIP

STRENGTHENING THE INDUSTRIAL ECOSYSTEM PROJECT

In order to increase the capacity of the OIZ, SME, TGB, TTO, İŞGEM and similar structures operating in the Region, and the companies, public institutions, organizations which operating in these structures,

- ❖ Elimination of deficiencies in basic infrastructure services
- ❖ Providing needed training and consultancy services
- ❖ Creation of common service infrastructures
- ❖ Taking measures to improve cooperation between institutions
- ❖ Implementation of the awareness activities

INTEGRATED RESOURCE EFFICIENCY IN AGRICULTURE AND AGRICULTURE-BASED INDUSTRY

In the fields of agricultural production and agriculture-based industry in the GAP Region,

- Effective and efficient use of production factors and production resources
- Contribute to increasing the competitiveness of the region
- ❖ Selection of 7 strategic agricultural products
- ❖ Value chain-based secondary and primary resource efficiency analyzes
- ❖ Measurement-based resource efficiency analyzes in agriculture and industrial enterprises
- ❖ Resource Efficiency Financial Support Program in Agricultural Industry
- ❖ Cotton's Digital Adventure Project
- ❖ Efficiency in Seed Production
- ❖ Efficiency Based Grape Plant
- ❖ AgroPV Pilot Plant Installation
- ❖ Dissemination of Good Cotton Practices in the GAP Region / Better

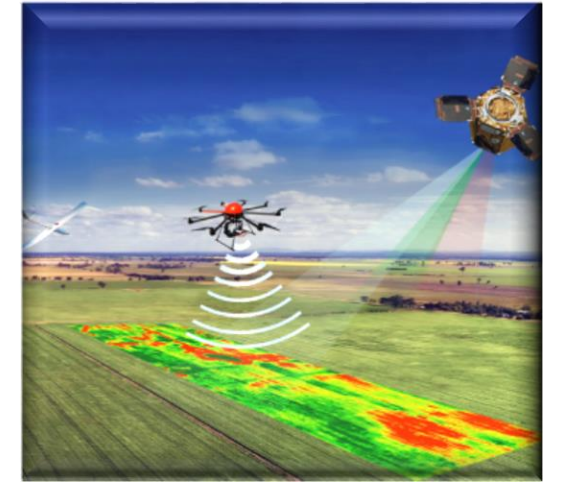

SUPPORTING SUSTAINABLE AGRICULTURAL PRODUCTION

DISSEMINATION OF PRECISION FARMING AND SUSTAINABLE IMPLEMENTATIONS IN GAP REGION

It is aimed to initiate and expand precision agriculture practices in the GAP Region.

- ❖ Cooperation and Coordination
- ❖ Field work
- ❖ Use of new technologies in agriculture
- ❖ Creation of Fusion center
- ❖ Education and capacity development activities
- ❖ GAP precise smart agriculture application has been developed and put into service of farmers.
- ❖ Within the scope of the GAP precision agriculture project, 7 projects were supported, including the year of 2021. 3 projects have been completed and 4 are still in progress.

SUPPORTING SUSTAINABLE AGRICULTURAL PRODUCTION

DEVELOPMENT OF AGRICULTURAL INFRASTRUCTURE PROJECT

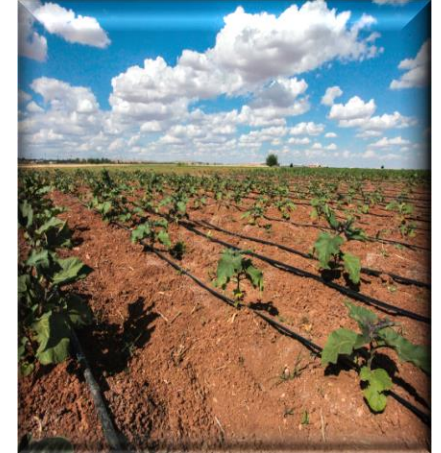

Within the framework of sustainable agricultural techniques, to make the best use of the agricultural potential and to increase the income level of the producers.

- ❖ Supporting agricultural research infrastructure
- ❖ Developing and disseminating model projects
- ❖ Capacity building

466 projects were supported, including the year of 2022. In the last three years (2020-2021-2022), 90 projects have been supported and 58 of these projects are ongoing within the scope of the Agricultural Infrastructure Development Project.

With supported projects;

- ❖ Sustainability
- ❖ Productivity
- ❖ Value Chain
- ❖ Employment
- ❖ Prevention of Migration are targeted.

SUPPORTING SUSTAINABLE AGRICULTURAL PRODUCTION

DEVELOPMENT OF LIVESTOCK PROJECT

It is aimed to eliminate the infrastructure deficiencies of the breeders who make their living from animal husbandry in the rural areas within the scope of the development of animal husbandry. With this purpose, Supporting the Infrastructure of Livestock;

- ❖ Multi-partner projects, producer organizations, (Producer Unions, Cooperatives, Chambers of Agriculture, etc.)
- ❖ Projects that take into account capacity development, value chain creation and clustering approaches,
- ❖ Sustainable, repeatable and reproducible projects that support the use of technology in the livestock sector,
- ❖ 22 projects were supported, including the year of 2022. 14 projects have been completed and 8 are still ongoing within the scope of the Livestock Development Project.

SUPPORTING SUSTAINABLE AGRICULTURAL PRODUCTION

GAP AGRICULTURAL TRAINING & DISSEMINATION PROJECT (GAP TEYAP)

It was put into practice in 2011 to increase the effectiveness of education extension services, especially in the areas opened and to be opened for irrigation in the GAP Region, and to show how the GAP service in this regard can be closed in the future, to be carried out in cooperation with the relevant institutions and organizations under the coordination of the GAP RDA.

GAP TEYAP has been/is being implemented in 3 stages.

Phase I - Education-Extension (2011-2013)

Phase II - Release Model (2014-2016)

Phase III - Sustainability (2017-2022)

72 projects were supported, including the year of 2022. 30 projects have been completed and 42 are still in progress within the scope of GAP TEYAP.

Implementation processes of ongoing projects are 2-3 years.

SUPPORTING SUSTAINABLE AGRICULTURAL PRODUCTION

ORGANIC AGRICULTURE CLUSTER DEVELOPMENT PROJECT

Cluster development work to be carried out in the provinces of the Southeastern Anatolia Region in the field of organic agriculture, was put into practice in 2009 to be carried out in cooperation with the relevant institutions and organizations under the coordination of the GAP RDA, in order to evaluate the agricultural potentials of the Region and to bring the organic food, beverage and organic textile sectors to a more competitive position.

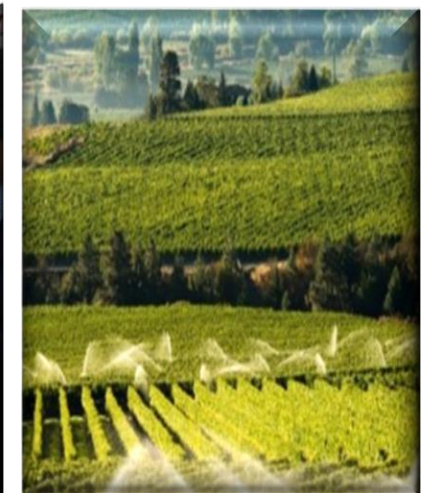

Priorities of GAP Organic Agriculture Cluster Development Project;

Priority 1: Encouraging organization in organic agricultural production and supporting institutionalization,

Priority 2: Increasing the added value and quality of organic agricultural products produced and/or processed in the Region,

Priority 3: Ensuring the access of organic products produced and/or processed in the Region to sustainable markets by developing regional, national and international collaborations.

60 projects were supported, including the year of 2022. 55 projects have been completed and 5 are in progress within the scope of the Organic Agriculture Cluster Development Project.

SUPPORTING SUSTAINABLE AGRICULTURAL PRODUCTION

IMPACT ASSESSMENT OF IRRIGATION INVESTMENTS PROJECT

It is aimed to develop technical, economic and political tools related to irrigation investments and present them to decision makers.

- ❖ Performance of irrigations
- ❖ Social and economic effects of irrigation investments
- ❖ Pricing of irrigation water
- ❖ Production optimizations in irrigation development projections
- ❖ Land use issues and recommendations
- ❖ Short, medium and long term development projection
- ❖ Support tools, issues, and policy recommendations
- ❖ The project has started to be carried out in cooperation with Harran University, together with relevant institutions and organizations.

Phase 1 activities of the project were completed in December 2021, and Phase II started in January 2022.

GAP KÖSİP (GAP Region Small Scale Irrigation Works Sectoral Operational Program)

The general aim of the project is to increase the production capacity of the enterprises and the employability of the rural workforce, to increase the welfare level of the rural society by providing regular and sufficient income opportunities, to keep the population in the countryside and to contribute to food security, with the understanding of environmentally, socially and economically sustainable rural development.

Goals and expected outputs;

- ❖ Increasing irrigated agricultural lands outside the GAP Irrigation Project (GAP Action Plan) areas,
- ❖ Renovation of areas with very low irrigation efficiency in the current situation (increasing from 20-30% to 55%), which was done during the village services period,
- ❖ Ensuring the transition of idle irrigation areas, which need rehabilitation and modernization, to irrigated agriculture,
- ❖ Developing alternative production models (good agriculture, organic agriculture, greenhouse cultivation, etc.) in small-scale irrigable areas that can potentially create added value,
- ❖ Contribute to reducing the income gap between regions,
- ❖ Protecting agricultural resources and increasing their productivity,
- ❖ Contribution to employment is targeted.

Within the scope of GAP KÖSİP, which was included in the investment program for the first time in 2022, 4 projects were supported. All projects are still ongoing.

INTEGRATED RURAL DEVELOPMENT

- ❖ Sub-Regional Determination Strategic Plan was prepared
- ❖ Sustainability, participation, value chain analysis and clustering approaches were taken into account “Sub-Regional Rural Development Plans” in 28 districts
- ❖ Project implementation units were created
- ❖ For rural development; capacity building trainings, organization, marketing, development of agriculture and plant production, drinking water, rural tourism, increasing entrepreneurship and employment, projects for supporting social development
- ❖ A total of 340 sub-projects were implemented between 2011-2021.

SOCIAL DEVELOPMENT PROJECTS

SOCIAL RESEARCH AND ACTION PLAN APPLICATIONS

To accelerate the development process and to ensure a balanced development by supporting the economic growth process with social development; through the work carried out in order to increase the effectiveness and prevalence of social services for the GAP Region, to minimize the social development gap between this region and other regions in the medium term and to eliminate it in the long term;

- ❖ 11 projects with a budget of 4.409.280.00 TL were supported and the implementation phase was started in 2020.

SUPPORTING HUMAN AND SOCIAL DEVELOPMENT

MULTI PURPOSE COMMUNITY CENTERS (ÇATOM)

GAP YOUTH HOUSES

SOCIAL STRUCTURE ANALYSIS

THE EFFECT OF E-COMMERCE ON LOCAL ECONOMIC DEVELOPMENT AND SEARCH FOR A SUITABLE MODEL FOR GAP REGION

Motto: From Bedesten to Digital Platforms

Within the scope of the work, to contribute the access of regional producers to online markets, and ensure that the economy is integrated with online markets, to create a sustainable e-commerce model suitable for local conditions and to contribute the local economic development,

- ❖ November 2021 - Search meeting
- ❖ December 2021 - Validation workshop
- ❖ February 2021 - Strategy document
- ❖ March 2021 - Capacity needs analysis and mapping activities were done.

"Türkiye'deki ürünlerin %8'i e-ticaretle satılıyor. Bu rakamın 2023'te %25'e gelmesi öngörülüyor"

Serhat Karaboyun

WORK ON PRODUCER ORGANIZATIONS IN THE LINE OF NEW ECONOMIC ORDER AND NEEDS

Motto: Sustainable Organizations for Sustainable Development

Within the scope of the study implemented in order to contribute to the increase of the administrative, technical and institutional capacity of the cooperatives, unions, associations, economic enterprises and companies that established for social and economic purposes within the regional development ecosystem,

3 March 2022 – A workshop was held with the participation of public, local government, civil society, private sector, universities and international institutions and organizations.

❖ Strategy Document is being prepared.

A large, blue, irregularly shaped graphic element, resembling a splash or a cloud, is centered on a white background. Inside this shape, the text "ENVIRONMENT, TOURISM AND URBANIZATION PROJECTS" is written in a bold, white, sans-serif font, arranged in two lines.

ENVIRONMENT AND INFRASTRUCTURE PROJECTS

ONGOING PROJECTS (CULTURE AND TOURISM)

GAP REGION TOURISM ORIENTED PROMOTION AND BRANDING PROJECT

In the GAP Region Tourism Master Plan, which was prepared by the GAP Administration in 2011; The “GAP Region Tourism-Focused Promotion and Branding Project” has been a long-term project since June 2014, in order to evaluate the cultural heritage of the region with a tourism focus by considering the protection-use balance, to increase employment and tourism revenues, and to ensure the continuity of tourism movements in a healthier and more sustainable way.

Our project aims to make an important sustainable tourism destination by branding the region covering 9 GAP provinces (Adiyaman, Batman, Diyarbakır, Gaziantep, Kilis, Mardin, Siirt, Şanlıurfa, Şırnak) with a holistic approach.

MEZOPOTAMYA
DESTANSI TOPRAKLAR

CULTURE AND TOURISM PROJECTS

STRENGTHENING THE GAP REGION'S TOURISM PHYSICAL INFRASTRUCTURE PROJECT

❖ Tourism, which is an important part of economic development, plays an important role in reducing poverty by creating new employment areas, increasing the cultural and tourism-oriented income level of the Region, and forming the cultural and social structure. In order to increase the tourism-oriented employment and income of the region, 33 projects were supported between 2017 and 2021 to strengthen the physical infrastructure, and a total of 37,258,414 TL grant support was provided to these projects, which is making the region an important center of attraction in terms of tourism.

ONGOING PROJECTS (CULTURE AND TOURISM)

CONSERVATION PROJECT OF TANGIBLE AND INTANGIBLE CULTURAL HERITAGE

One of the most important objectives of the GAP Regional Development Administration is to protect the cultural heritage and to ensure that it is used by the local people in a balance between protection and use for tourism. In this context, the protection of tangible and intangible cultural heritage with these supported projects; indirectly, it is aimed to support economic growth.

Projects supported for this purpose;

- ❖ 2019 – Nostalgic Playground Project / Şanlıurfa 2020 –
- ❖ Nostalgic Children's Playground Project / Gaziantep 2021 –
- ❖ Different Cultures Meet at the Festival / Kilis 2021 –
- ❖ Mardin People Keep Their Culture Alive Project / Mardin 2021 –
- ❖ Become a Guest to Your Past Project / Adıyaman
- ❖ A total of 3,100.00 TL support was provided to the projects.

ONGOING PROJECTS (ENVIRONMENT AND INFRASTRUCTURE)

KARAALI GEOTHERMAL WELL DRILLING AND ITS CONTRIBUTION TO THE ECONOMY PROJECT

With the project realized in order to protect the water level in the wells used for heating in the Karaali region, where greenhouse cultivation is carried out on an area of 500 decares;

- ❖ Drilling 2 geothermal production wells
- ❖ Construction of 4 reinjection wells
- ❖ After the incoming hot water is used in greenhouses, it is aimed to reuse the cooled water efficiently.

The project is supported with 1,195,000,00 TL.

INTERNATIONAL ACTIVITIES

COOPERATION WITH INTERNATIONAL INSTITUTIONS AND ORGANIZATIONS

During the integrated regional development process;

- ❖ Sharing knowledge and experience
- ❖ Mutual exchange of experts
- ❖ Collaboration studies for technology transfer

With many participants from countries such as Egypt, China, Bosnia, Macedonia, Bangladesh, Morocco, Uganda, Burkina Faso, Namibia, Colombia, Azerbaijan

- ❖ Trainings
- ❖ Various workshops and seminars with foreign partners/stakeholders
